**Continuing Coverage under COBRA (Consolidated Ombudsman Budget Reconciliation Act)**

This law is designed to protect you and your family in the event that you lose eligibility for health benefits. It allows you to continue the group health benefits you had as an active employee for a limited period of time after you leave MIT. Crosby Benefits, the COBRA administrator, will send you a packet within 30 days after you leave MIT. If you have any questions, contact Crosby Benefits directly at 800-462-2235.
The COBRA package you receive will contain all the MIT Benefits that you are enrolled in as an active employee. **If taking MIT Retiree Medical, please disregard the medical information contained in the COBRA packet.** We are required to send this information, but not all information will pertain to you.

☐ **Dental Insurance:** If you are enrolled in Delta Dental at the time of your retirement, a COBRA dental enrollment package will be sent to your home address. Please complete the application and return it to Crosby Benefit Services if you want to continue your existing dental coverage under COBRA (for up to 18 months).

MIT does offer a Retiree Dental Plan. It is up to you to choose between MIT Retiree Dental and COBRA. If you elect COBRA, you will have continuation of coverage up to 18 months at which time you can enroll in Retiree Dental. Currently, the retiree dental plan is more expensive than COBRA so we recommend that you review the coverage and the cost before selecting dental coverage.

☐ **Vision Insurance:** Vision benefits do not continue in retirement. However, information regarding your right to continue your vision plan will be included in your COBRA packet that you will receive from Crosby Benefits. COBRA is available for 18 months after retirement and you will be charged 102% of the full premium. Please see the COBRA information under Dental Insurance for more information.

☐ **Flexible Spending Account (FSA):** If you have a medical FSA balance at the time of your retirement, FSA information will be included in your COBRA packet. You may continue to use your medical FSA through COBRA on an after-tax basis. Dependent care FSA cannot be continued at retirement.
